## IROH

### lead

**Guillaume Buisson** [1]

**iroh** [1]

- Initial Incident Response Design Draft [#7398](#)

### data

**Mario Aquino** [2]

**iroh** [2]

- Add audiences to client [#7812](#)
- OrgTokenProviderService [#7731](#)

**Guillaume Erétéo** [4]

**ctia** [1]

- add total-hits headers to metric responses [#1363](#)

**iroh** [3] [>1w](#)

- introduce aggregation in crud store [#7734](#)
- Add Scott to CODEOWNERS [#7782](#)
- first stats [#7765](#)

**Ambrose Bonnaire-Sergeant** [1]

**ctia** [1]

- Push sighting store's coercion pattern into def-es-store [#1361](#)

## integrations

**Matthieu Sprunck** [1]

**iroh** [1]

- E7469: Event API extension design [#7462](#)

**Kirill Chernyshov** [3]

**iroh** [3] >1w

- Fix configuration option for event signer [#7777](#)
- Add signer options for EventService [#7776](#)
- Simplify kafka-producer integration test [#7769](#)

[0]

## auth

**bartuka** [3]

**iroh** [3]

- [IROH Auth] introducing TimeService in AuthService [#7806](#)
- [IROH Auth] allow only iroh-core.time in oauth2.core ns [#7793](#)

>1w

- [IROH Auth] - Update IROH Web middleware to build short JWTs with profile data [#7671](#)

**Yann Esposito** [14]

**iroh** [7]

- Add a missing option to disable default configs [#7805](#)
- Add a script to init tokens without login in [#7794](#)
- Fix schema for Response [#7804](#)
- Add support to onboard a single app [#7796](#)
- Add a role introspection route to help the UI and other clients [#7785](#)
- Fix scopes declaration for execute-workflow route [#7799](#)

>1w

- Fix a Swagger bug due to schema name conflict [#7790](#)

**tenzin-config** [2] >1w

- fix missing iroh-async web-services [#884](#)
- align iroh and iroh-async confs [#883](#)

**xdr-provisioning** [5]

- Improve help regarding setting env vars
- Improve the command line parsing
- rename script to .sh
- Add onboarding of DI and CSC

>1w

- Initial provisioning Script

**Olivier Barbeau** [1]

**tenzin-config** [1] >1w

- sets the :xdr-roles feature flag in INT and TEST [#840](#)

**(Yogsototh) [5]**

**xdr-provisioning [5]**

- Improve help regarding setting env vars
- Improve the command line parsing
- rename script to .sh
- Add onboarding of DI and CSC

>1w

- Initial provisioning Script

**iroh-ops**

**Jerome Schneider [1]**

**tenzin [1]**

- Upgrade TF AWS provider

**Patrick Patat [1]**

**tenzin [1]**

- allows iroh-ops dev platform to access redis [#2755](#)

**Other**

**Other**

**Robert Levy [2]**

**iroh [2] >1w**

- fix dev-resources config to use the correct key signer-ops instead of signer [#7778](#)
- Add registered trademark to MITRE tile title [#7775](#)

**Eric Gierach [4]**

**iroh-engine [4] >1w**

- Merge pull request [#1387](#) from advthreat/v0.15.5-rc
- Prepare for 0.15.5 release.
- Merge pull request [#1386](#) from advthreat/enrich-all-targets
- Fix typo in log

**Devin Walters [2]**

**tenzin [2]**

- Set tmpdir to /local for conure task [#2930](#)
- Mount datadog socket in conure task [#2922](#)

**Mia [1]**

**iroh [1] >1w**

- Update risk score docs to include overview of enrich-targets process [#7773](#)

**Adam Sayer [3]**

**tenzin [3]**

- increase ES storage iops/throughput [#2927](#)
- Vercel CICD accept 409 and watch http state
- Add Vercel CI/CD to Saltmaster [#2920](#)

**milehrer** [1]

**iroh-engine** [1] >1w

- move forward if no new targets or asset

**Martin Bruchanov** [2]

**tenzin** [2]

- Security groups for OPS VPN in INT [#2924](#)

>1w

- Added CLI parameters for ES administration tools [#2915](#)

**Ag Ibragimov** [3]

- adds :xdr-site-url [#885](#)

>1w

- adds detection sources config for PROD [#881](#)

**Sofia Mykytiuk** [8]

**tenzin** [8]

- Update VPNator lambda functions in INT [#2929](#)
- Update min capacity for ASG in backup regions [#2917](#)
- Update readme in terraform folders for backup regions [#2896](#)

>1w

- Saltstack changes for backup regions [#2822](#)
- ROAdmin role for STAGE and PROD [#2909](#)
- Update saml in terraform to sync with AWS STAGE and PROD accounts [#2910](#)
- ROAdmin role for INT [#2903](#)
- Add nodes to ES-metrics cluster in EU [#2905](#)

**Will Lorand** [1]

**iroh** [1] >1w

- Update summary.org [#7603](#)

**Michael Pendergrass** [1]

**iroh** [1] >1w

- Engine 0.15.5 [#7768](#)

**Scott McLeod** [1]

**iroh** [1]

- Improve performance of IncidentReportService [#7745](#)

**Sam Waggoner** [1]

**tenzin-config** [1]

- Add hydrant es-metrics configs for events.

**t2sw** [1]

**iroh** [1] >1w

- modify get-tiles and get-tiles-data endpoints for xdr query parameter [#7757](#)

**Gayan Jayasundara** [1]

**tenzin** [1] >1w

- Bump crowdstrike and SentinalOne - Ian requested [#2904](#)

**Pawan Bahuguna** [4]

**tenzin** [4]

- Added health check header [#2921](#)
- Added Health check header to crowdstrike for testing [#2916](#)

>1w

- Increased the Max size to 6 [#2908](#)
- Updated the version to 7.0.7 to sync with AWS [#2907](#)

**Trent Boyd** [1]

**tenzin-config** [1]

- chore: add https dev urls to xdr projects [#886](#)
