## 1 No Brainer Markdown to HTML & PDF

For each markdown files it will generate:

- an HTML Document
- an HTML Presentation (using reveal.js)
- a PDF Document (using XeLaTeX)
- a PDF Presentation (using Beamer)

```
./compile.sh
```

If you want to be the 1337, install **stack** and

```
./build.sh  
./compile
```

### 1.1 Dependencies

- **pandoc** – Tested with pandoc 1.15.0.6
- **XeLaTeX** – Tested with XeTeX 3.14159265-2.6-0.99992 (TeX Live 2015)
- **metropolis** Beamer theme (working forked version here: <https://github.com/yogsototh/mtheme>)
